

Monaco, February 26, 2024

Dear Sir/Madam,

We are contacting you on behalf of the Organising and Scientific Committee in the framework of the **7th World Bronchiectasis Conference** scheduled to take place in **Dundee, Scotland** from **July 4 to 6, 2024**.

The last years have been amazing for the bronchiectasis international community. EMBARC and National Registries contributed to clarify **epidemiology**, providing us precious insights on the natural development of the diseases, on **comorbidities**, on the most common **management approaches** in the different countries and the **priorities to be set in research** to improve the quality of life of patients. **Multidisciplinary approach, physiotherapy**, precious tools to improve the patient journey, are, in some countries, well established, while in others they still have a long way to go to succeed in being included in the healthcare standard for bronchiectasis patients.

The programme of the conference aims at the further evolutions and possibly revolutions in the field. You can review the preliminary programme here: [Programme – 7th World Bronchiectasis Conference \(world-bronchiectasis-conference.org\)](https://world-bronchiectasis-conference.org)

In case you are interested, we would be grateful if your esteemed association could consider endorsing the Conference and contribute to the diffusion of the information on a free mutual exchange basis. We would **publish your logo**, and if you wish a banner of your next conference, with a direct link to your website, on the endorsement webpage: [Endorsements – 7th World Bronchiectasis Conference \(world-bronchiectasis-conference.org\)](https://world-bronchiectasis-conference.org). Your logo will also be published in the **final programme and in all the graphic material to be displayed on site**.

In exchange, we would be pleased if you could spread the word about the **7th World Bronchiectasis Conference** among your members and colleagues through your website, newsletters, and other means you may consider useful. You can find our promotional material on the following link [Social Media & Media kit – 7th World Bronchiectasis Conference \(world-bronchiectasis-conference.org\)](https://world-bronchiectasis-conference.org).

If you agree with our proposal, we would appreciate if you could provide us with your logo in a high-resolution format.

Finally, we take this opportunity to inform you that the **call for abstracts** and the **rising star programme** is open for submission until **March 29, 2024**. This will give the opportunity to young clinicians and researchers to present their valuable work. We would be delighted if your association members could contribute to this enrichment.

We hope to count on your support to face the new crucial world challenges in the respiratory as well as the related fields and we look forward to your kind reply. In the meanwhile, we remain at your entire availability should you need any further information.

Kind regards,
Organising Secretariat
